

Shubhangi Khule

+91-9518336637 — shubhangikhule25@gmail.com — [LinkedIn](#) — [GitHub](#) — Pune, Maharashtra, India

Professional Summary

Computer Science Engineering undergraduate with hands-on experience in Full Stack Web Development and Artificial Intelligence through academic and personal projects. Proficient in Java, Spring Boot, React.js, JavaScript, Python, SQL, and Pandas, with experience developing web applications, RESTful APIs, database-driven applications, and AI-based solutions. Strong foundation in Object-Oriented Programming, Data Structures, Database Management Systems, and software development. Passionate about building scalable, efficient, and user-focused applications while continuously expanding technical expertise in modern software technologies.

Education

Dr. D. Y. Patil Technical Campus, Pune	Aug 2024 – Aug 2027
Bachelor of Engineering, Computer Science Engineering (Pursuing) –	CGPA: 7.70/10
Government Polytechnic, Ambad	Jul 2021 – Jun 2024
Diploma in Computer Engineering –	81.09%

Technical Skills

- **Programming Languages:** Python, Java, JavaScript,
- **Databases:** SQL, MySQL, SQLite, Firebase
- **Tools & Platforms:** Git, GitHub, VS Code, Jupyter Notebook, Android Studio, Power BI
- **Web Technologies:** HTML5, CSS3, Bootstrap, React, Spring Boot
- **Fundamentals:** Machine Learning, Data Structures & Algorithms, DBMS, Operating Systems

Professional Experience

Mountreach Solution	Jun 2023 – Jul 2023
<i>Android Application Development Intern</i>	India
• Developed Android application features using Java, XML, and Android Studio, integrating Firebase and Google Maps API to extend functionality. • Implemented Fragments and Text-to-Speech capabilities to enhance user experience and accessibility. • Performed debugging, testing, and deployment activities throughout the mobile application lifecycle.	
Anudip Foundation	Jan 2025 – Mar 2025
<i>Advanced Java Training / Internship</i>	India
• Developed and practiced Java-based applications using object-oriented programming, exception handling, collections, and core Java concepts. • Implemented JDBC and database connectivity to perform data access and CRUD operations in Java applications. • Applied backend development, debugging, testing, and problem-solving skills through practical Java development tasks.	

Projects

AskMyDocs-RAG-Based Document QA System GitHub	May 2026
(Python, FastAPI, React.js, LangChain, ChromaDB)	
• Built a RAG-based document question-answering system using PDF extraction, text chunking, embeddings, and vector storage. • Implemented hybrid retrieval with BM25 and ChromaDB, followed by Cross-Encoder reranking to improve relevant document retrieval. • Developed REST APIs with FastAPI and a React.js frontend, integrating Groq API for context-aware LLM response generation.	
Future Flags– SaaS Platform GitHub	Feb 2026
(Java, Spring Boot, PostgreSQL, Spring Security, RestAPI)	
• Developed a full-stack SaaS platform using Java, Spring Boot, Spring Security, PostgreSQL, Hibernate/JPA, HTML, CSS, JavaScript, and Bootstrap. • Built RESTful APIs and CRUD operations for users, companies, subscription plans, and feature flags, enabling secure and efficient frontend-backend communication. • Implemented multi-tenant feature management, role-based access control (RBAC), authentication, subscription-based feature access, and company/country-wise configurations.	

Certifications

- Artificial Intelligence – IBM SkillsBuild
- Operating Systems – Cisco Networking Academy
